

Bar Product - Complete Packaging System

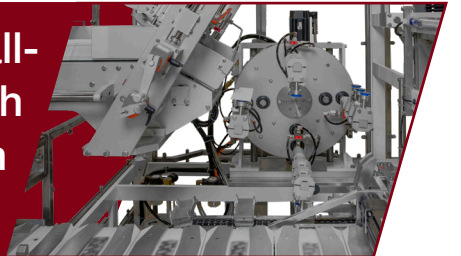

Smart Turret Feeder

High-speed feeder prepares and orientates product for picking; Handles various types of bar products

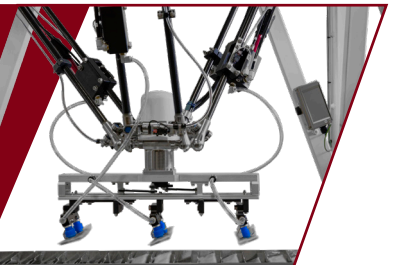

Cartoner

High-speed, all-servo design with unmatched carton loading accuracy

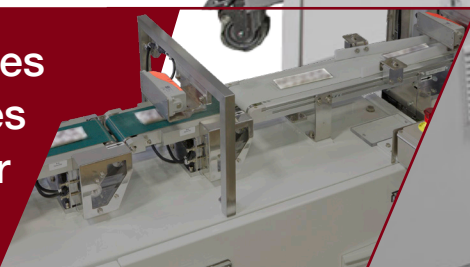

Delta Robot

Efficiently loads product from intermittent motion collation to continuous motion carton infeed

Smart Control Conveyors

Properly spaces and prepares product for collation

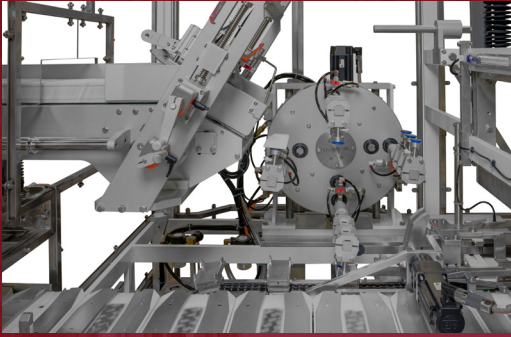

Since 1948, customers have relied on our unmatched application experience in end-of-line packaging applications. That experience includes the high-speed handling of flow-wrapped products from post-wrapper collation to robotic carton loading and all the way through case packing. A single controller operates the entire system ensuring seamless operation and unmatched performance.

Unmatched Global Reach

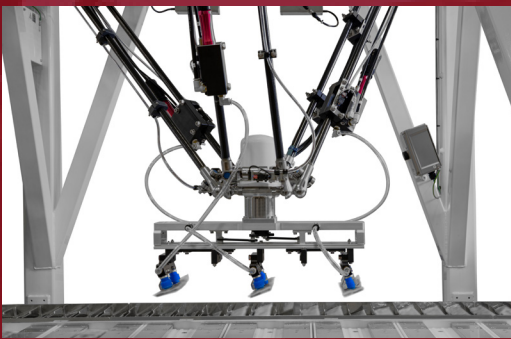

3,000 Delta Robots Installed

2,000 Cartoning Systems Installed

HIGH PERFORMANCE MACHINES

- High End-Hi Tech-Quality
- Robust Construction
- Available in SS Wash Down
- Highly Efficient
- Reliable
- Industry Proven
- Seamless to Integrate

CUSTOMER FOCUSED

- Practical
- Innovative
- Operator Friendly
- Instructive HMI with Smart Data
- Value Added

PEOPLE ORIENTED

- Sustainable
- Education Driven
- Vertically Integrated
- Undivided Responsibility
- Successfully Accomplished
